Profile

B.Tech CSE student at KIIT with hands-on experience in AI/ML and IoT, building projects that span Raspberry Pi embedded systems to cloud-deployed applications.

Technical Skills

- **Languages:** Python, Java, C, SQL
- **AI/ML & Data:** OpenCV, dlib, Scikit-learn, BERT, Streamlit
- **IoT & Hardware:** Raspberry Pi 4, GPIO, SSH, Flask (WiFi camera streaming)
- **Tools & Platforms:** Git, GitHub, Firebase, Jupyter, Google Colab, Overleaf/LaTeX

Experience

Software Development Intern

Jul 2025 – Sep 2025

Sopra Steria India, Noida

Remote

- Developed an enterprise-style Python project under a Senior Technical Lead, simulating real IT consulting workflows with structured deliverables.
- Improved code quality through iterative feedback cycles, adopting industry-standard coding and documentation practices.
- Produced detailed technical reports aligned with professional software project management standards.

Projects

Driver Drowsiness Detection System

Python, Raspberry Pi 4, OpenCV, dlib, Flask

IoT Mini Project, KIIT University

[GitHub Repository](#)

- Built a real-time drowsiness detection system on **Raspberry Pi 4** using OpenCV and dlib facial landmarks with the **Eye Aspect Ratio (EAR) algorithm** (threshold 0.22 across 17 consecutive frames).
- Engineered a **Flask WiFi camera-streaming server** to relay live video over LAN, enabling fully headless SSH operation with no attached display.
- Built the end-to-end embedded pipeline: camera input → facial-landmark detection → EAR computation → audio alert.

Smart News Summarizer

Python, Streamlit, Firebase, Gemini API

Personal Project

[GitHub Repository](#)

- Built an **AI-powered web app** that scrapes long-form news articles from a URL and summarizes them into a few clear sentences.
- Implemented user authentication, a Streamlit interface, and URL-based article scraping and extraction.
- Integrated a **Firebase backend** for data persistence and tested across 100+ articles.

Certifications & Achievements

- **Goldman Sachs India Hackathon 2026 – CS Track:** Solved a multi-agent drone-delivery routing problem with dynamic no-fly zones using A* pathfinding and bitmask Dijkstra (Top 14%, #2167 of 16,000+).
- **IBM Data Science Professional Certificate** – Coursera. [View Certificate](#)
- **Google Cloud Skills Boost – Arcade (2025):** 125+ skill badges and 438+ hands-on labs across GKE, BigQuery, Vertex AI, Terraform, and Cloud Run. [View Profile](#)
- **Oracle Cloud Infrastructure 2025 – AI Foundations Associate** – Oracle. [View Certificate](#)
- **AI & ML Workshop** – IIT Delhi, Rendezvous. [View Certificate](#)
- **German Language Certification.** [View Certificate](#)

Education

B.Tech, Computer Science and Engineering

2023 – 2027

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar

CGPA: 8.85

CBSE Class XII

2023

R.R.K Sr. Sec. School

89%

Additional

Languages: Hindi (Native), English (Fluent), German (Certified)

Interests: Singing, Sketching
